Portfolio

PROFESSIONAL SUMMARY

B.Tech CSE (AI & ML) student at Sushant University with a 9 CGPA and hands-on experience across software development, Generative AI testing, application testing, market research, and B2B data initiatives. Experienced in Python, C, SQL, Excel, debugging, structured testing, and cross-functional collaboration, with a strong interest in building and improving technology products.

EDUCATION

Sushant University — Bachelor of Technology in Computer Science (AI & ML) | 2024–2028
Current CGPA: 9.2 | Academic Grade Sheet

EXPERIENCE

Zorvix Pvt. Ltd. — Software Engineer Intern | Gurugram, India | Jun 2026 – Aug 2026

- Contributed across software development, testing, debugging, and application optimization within a collaborative engineering team.
- Wrote maintainable code, resolved bugs, and implemented application features in line with software engineering best practices.
- Worked with version control and Software Development Life Cycle (SDLC) practices while strengthening practical problem-solving skills.

Core skills: Software Development, Debugging, Testing, Version Control, SDLC

ContactME — AI Prompt & Test Engineer Intern | Gurugram, India | Jun 2025 – Aug 2025

- Tested Generative AI, Voice Assistant, and Agentic AI modules, identifying bugs and performance issues across application workflows.
- Structured app categories, workflows, and testing logic in Excel to improve consistency and documentation.
- Built lead-generation datasets covering 500+ Indian companies and 48 global AI firms through market research.
- Created UI/UX wireframes and supported B2B feature integration and product-development activities.

Core skills: Generative AI Testing, Application Testing, UI/UX, Market Research, Excel, B2B Strategy

SKILLS

Programming & Data	Python, C, SQL, Excel
AI & Testing	Generative AI, Prompt Testing, Application Testing, Debugging
Business & Product	Market Research, B2B Strategy, UI/UX Wireframing
Professional	Problem Solving, Team Collaboration, Communication, SDLC, Version Control

LEADERSHIP & ADDITIONAL EXPERIENCE

- Led a lead-generation initiative that organized 500+ Indian companies and 48 global AI firms to support business development and outreach.
- Prepared and dispatched 300+ formal investment letters, independently coordinating delivery with the post office.
- Bridged research and development teams by communicating testing outcomes, documentation, and user insights.
- NSS Volunteer, Sushant University — contributed to community development and campus initiatives.

ACHIEVEMENTS & CERTIFICATIONS

- Smart India Hackathon 2025 – 1st Position (Internal Hackathon)
- Introduction to Generative AI – Sushant University
- National Symposium on Real World IoT Applications – Sushant University
- National Service Scheme (NSS) – Certificate of Achievement
